

**The fastest
Tablet PC today**

Intel® Core i7 vPro™ processor.
Up to 8 GB Memory

12.1" multi-touch
capacitive touch screen

Dual hot swappable
Li-ion smart batteries

PaceBlade

HIGHLY MOBILE COMPUTING SOLUTIONS.

PaceBlade SlimBook D240 series Tablet PCs were designed to enhance productivity for mobile professionals by offering a no compromise computing solution that allows you to work in the field as efficiently as you work in your office.

By combining the power of an Intel® Core i7 vPro™ processor and the desktop compatibility of Microsoft® Windows® 7 Professional, you no longer have to choose between mobility and compatibility or performance. All the same applications you use to run your business can travel with you on the road, only without the cumbersome workspace requirements that a full laptop computer demands.

Performance and compatibility are only part of the story. This new generation of SlimBook Tablet PCs also feature a dual mode display that intelligently auto-switches between a Wacom® active digitizer and a multi-touch capacitive touch screen. This means you can choose to use a stylus pen for highly accurate handwriting recognition, or zip around your desktop with a flick, tap, pinch or swipe of your fingers. Using a Tablet PC has never been easier.

SlimBook D240

SlimBook D240

Processor: Intel Core i7-640LM / 2.13 GHz
32 KB L1 cache per core / 256 KB L2 cache per core / 4 MB Unified L3 cache
Intel Hyper Threading and Turbo Boost Technology

Operating Systems: Windows 7 Professional 64 bit

Memory: 4 GB DDR 3 upgradable to 8 GB
